Anaheim, CA

Anaheim Police Department Main Station
425 S. Harbor Blvd. | Anaheim CA, 92805

Hosted by the Anaheim Police Department

Instructor: Sgt. Jason Louis, Ventura County Sheriff's Office

\$459/student

CA POST Certified: #1345-33887-23-007

Use of Force for Field Supervisors provides current and aspiring supervisors with specific skills they can use to reduce liability and the risk of injury by managing the most common use of force incidents before, during and after an incident.

The way law enforcement officers use force is under scrutiny like never before. For years, we've heard complaints from law enforcement supervisors that they weren't receiving the up-to-date and practical training they need to mitigate risk for their officers and their agency. That's why we created this course.

This course contains everything you need to manage the types of use of force incidents you respond to most often. Instead of vague concepts or an outdated instructor, you'll get the specific tools you need and will learn from a current practitioner in the field.

In this course, you will learn:

- ✓ The best ways supervisors can "set the tone" ahead of time during briefing trainings
- ✓ How to manage the scene of a use of force incident
- ✓ How to manage use of force incidents on your shift and conduct in-field use of force investigations
- ✓ Use of force laws that every supervisor needs to know

Jason Louis is the CEO of The Briefing Room and an active-duty patrol sergeant with the Ventura County Sheriff's Office. He has instructed Use of Force and Defensive Tactics classes for most of his 23-year career. Jason is a certified Force Science Analyst, Enhanced Force Investigations Strategies Specialist, a sitting member on his agency's use of force review board, and an expert in contemporary use of force law.
